Dear New Homeowner,

Your house is a big investment; probably one of the biggest investments you'll make in your lifetime. It's the place you and your loved ones call home; a shelter and haven from the outside world. That's why it is so important to help ensure that your home and family are protected in the event of your death.

It's not a topic we like to dwell on, but the reality is this:

Should you die unexpectedly and without having taken precautions, your family may not have the resources to keep their home and afford the lifestyle they've grown accustomed to.

Having a solid life insurance policy to help protect your family in the event of your death is vital. Your family will have enough to worry about without any added stress. Having enough life insurance coverage will help enable your family to keep their home, and possibly have enough to send your children to college.

After working so hard to provide for your family, the prospect of your spouse having to sell your home can be unimaginable. Please take the first step, and contact me directly at **401-457-7368** or clarisebrooks@financialguide.com to arrange an insurance needs assessment and review.

Regards,

Clarise
