A brief note on Nancy Corbett;

I would not be sitting here in my own home without Nancy Corbett. Without her vision, guidance, and determination, there is no way we would ever qualified, let alone closed, without her. Without her vision, We (my wife Sherri and I) would have forever believed our dream of home ownership was out of our reach. Nancy took us all the way from non believers to home owners. She was in the trenches with us fighting the whole way. One by one she was there, to help us clear every hurdle from pre qualifying, to final approval, from cleaning up our credit, to fixing the sprinkler system. We are forever indebted to her.

Nancy is a busy realtor. Don't expect her to sit around and be there to answer you every call. Sometimes it takes her a few hours to get back to you, but when she does, she usually has the answer to your question or the problem already solved. This woman is all business, and knows how to get things done. If you want a Realtor who works as hard as you do, Nancy Corbett is my choice for you.

Sincerely

Frank Duarte
