

RE/MAX Veterans First

RE/MAX Veterans First Program— The Only National Program Owned and Operated by Veterans and Contributing to Military Charities

Exclusive to RE/MAX, Veterans First is a national buyer/seller rebate program designed to show our appreciation for prior, current/retired military and their surviving spouses, while providing a nationally managed and branded program maximizing the Veteran's real estate experience and rebate at closing.

RE/MAX firms promote the Veterans First Program in their exclusive markets; every firm has the right to share this special program with Veteran consumers, military installations, facilities or Veteran related organizations. These participating RE/MAX firms partner with local businesses, organizations or governmental agencies to co-market this program to their employees or military clientele.

In our nation's ten non-rebate states, we offer a Veterans Appreciation Program providing membership benefits as our way of thanking Veterans for their service and remaining compliant with each states' Real Estate Commission laws. In these states, the Veterans benefits are provided by the seller of the respective property as a benefit at closing.

Every RE/MAX Veterans First agent is certified to work with Veterans through the USA Cares Certified Military Housing Specialist Course. Agents, through their membership in the National Veterans First Program, pledge to provide our Veterans with outstanding service and make the Veteran's real estate experience as painless and profitable as possible.

Each participating network firm is prominently featured within our national, industry-leading website, found at www.remaxveteransfirst.com. Our interactive map technology connects relocating veterans with each firm's identity through an easy-to-use search tool, while also inviting users to search for homes on the local firm's website.

Veterans First is RE/MAX branded and heavily marketed on our four program pillars: Exclusive RE/MAX National Program—work with the most productive agents in the nation, largest rebates in the industry, the program is owned and operated by Veterans and giving back to military charities differentiating us from all other national programs—including the current USAA Movers Advantage program.

The RE/MAX Veterans First Program is our way of thanking our nation's heroes for their service to our country. Please contact your local exclusive RE/MAX Veterans First Firm or contact the National Veterans First Headquarters at Info@remaxveteransfirst.com
