# EVERYTHING BRAMPTON

Brampton is one of Canada's largest and fastest growing cities.

The City of Brampton takes immense pride in our diverse community, culture and heritage. Consumer growth and commercial development have transformed what was primarily a rural area 150 years ago into a dynamic community where history mingles with modern infrastructure, lush green landscapes, an extensive sport and recreation network and a spirited arts community.

As Canada's Flower City, Brampton showcases some of the most interesting and beautiful flowerbeds and floral displays in the province. In 2008, Brampton was the International award winner in the prestigious Communities in

Bloom Competition. We were honoured to receive the highest score in recognition of our innovative work to create a beautiful living landscape.

Not only a beautiful city, Brampton has been recognized as a global leader in community safety, being the first municipality in the Greater Toronto Area, and one of only 10 in North America, to be designated as an International Safe Community by the World Health Organization.

With a current population of more than 450,000 people, Brampton's young and diverse multicultural mosaic represent more than 175 distinct ethnic backgrounds. Our diversity is mirrored in an eclectic mix of restaurants and boutiques, festivals, performing and visual arts, museums, outstanding educational institutions, and abundant recreational opportunities facilitated by over 6,000 acres of parkland and open space.

For visitors to Brampton, recreational play, cultural experiences and community festivals are never far away. Come experience Everything Brampton!

# BRAMPTON'S HISTORY

Visit us online at [www.tourismbrampton.ca](http://www.tourismbrampton.ca) for more information on our local heritage, or visit one of Brampton's museums and historic sites where history comes to life.

## Quick facts about Brampton's history:

- Brampton was still a wilderness when the first European settlers arrived in the early 1800s.
- Early settlers originally named the tiny settlement of Brampton in honour of their hometown – Brampton, Cumberland, England.
- The Grand Trunk Railway constructed a rail line and a station in Brampton in 1856, which triggered an economic boom and the village started growing fast.
- In 1873, Brampton was incorporated as a town and John Haggert was elected the first Mayor.
- In 1860, Edward Dale established a flower nursery. Within a few short years, Brampton became known as the “Flower town of Canada” and soon Dale’s Nursery was Brampton’s largest employer. By the turn of the century, hundreds of acres of land were filled with greenhouses growing prize orchids, hybrid roses and many other quality flowers for export around the world.
- After World War II, new subdivisions began to develop. In the late 1950s Bramalea was created and touted as “Canada’s first satellite city”.
- In March 1948, Brampton endured a devastating flood when the Etobicoke Creek overflowed its banks. The town launched an ambitious civil engineering project to straighten and reroute the Etobicoke Creek.
- In 1974, the Region of Peel was created and Brampton became a city.
- In the 1980s and 1990s, expansive subdivisions were developed. The culturally diverse and vibrant City of today began to emerge.
- Brampton is now among the largest urban centres in Canada with a population of over 450,000 people.

From the family treasures and handmade tools of the settlers to pieces of the supersonic AVRO Arrow - the Region of Peel Museum is a perfect 'first museum' for families with

young children with hands-on activities, easy to read information and a warm, approachable staff.

A fascinating part of the Peel Heritage Complex, the Archives hold the rich documentary heritage of the Region. Maps, letters, diaries, photographs, government records and more make this the first stop for anyone interested in their genealogy or history of their home and community.

# FARM FRESH

## BRAMPTON FARMERS' MARKET

Every Saturday from June 20th to October 10th downtown Brampton is transformed into a vibrant outdoor festival marketplace that is known as the Brampton Farmers' Market or BFM. Visitors gather to buy the freshest, locally grown Ontario produce, hand-made crafts, preserves, baked goods and much more from over 40 vendors.

The BFM has created a truly "Family Market Experience" for every age. The open-air market offers diverse entertainment and activities in Garden Square every Saturday. The BFM acknowledges Brampton's ethnically rich population by the entertainment it offers and as well by the vendors that participate. The vendor mix also includes organically grown produce and products for the health conscious.

The Brampton Arts Council works with the Brampton Farmers' Market to bring local artists and craftspeople to the market. "Art in the Open" takes place during the same hours as the farmers' market. Brampton Arts Council members sell watercolours, dried flower arrangements, woodcrafts, garden ornaments, and lots more...all unique and hand made by the artists.
