

# Results That Make a Difference

Look at most relocation companies and you see everybody offering what seems to be a comparable list of services.

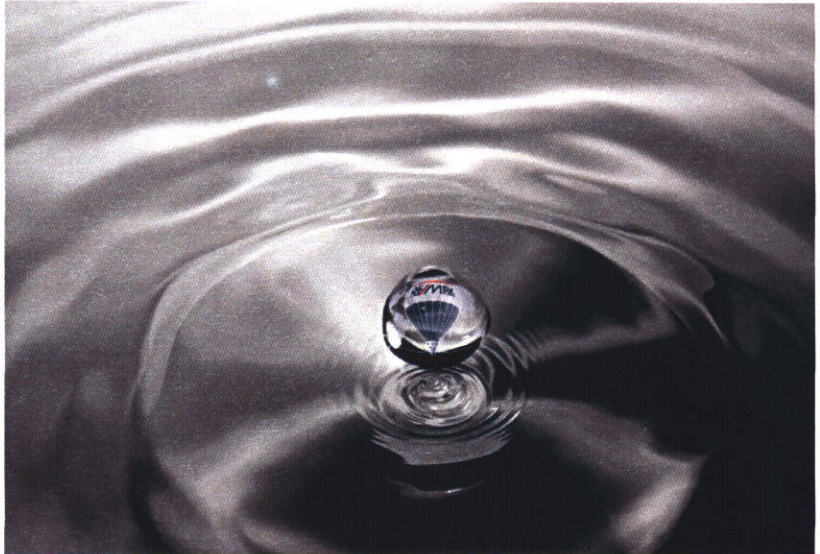

## RE/MAX Relocation Sometimes it's hard to see the differences

In fact, the only way to really see a difference isn't in comparing lists. The difference is found somewhere more critical.

### It's in the results

#### The RE/MAX Relocation Difference:

- Experienced staff and service partners who protect our transferees' interest at every step.
- 95% client retention and 96% employee retention rates that let you build a true relationship with us.
- Online tracking and real-time reports that keep our clients and their employees always in the know.
- 24/7 availability that reduces transferee stress.
- Industry-leading amended-sale ratio that saves our clients money.
- International service providers who put our clients needs first.
- Service partners selected for superior service and cost savings to our clients, NOT steep discounts to us.
- A "Service Guarantee" that lets our clients know exactly what they've contracted for and exactly how we must provide it.
- Account-team compensation based on performance, so we can't succeed unless our clients do.
