This is for anyone looking for a home to purchase or to rent... My name is Jessica and I met Mark Rusnak several years ago when my fiancé and I needed to find a place to live. We were in a tight situation as we were going to purchase a house and decided it was not the one for us at the last minute. Our rental home we were residing in at the time was already leased out to someone else which gave us only three days to find a new rental until we were ready to purchase. We were driving around the town we wanted to live in and found a cute little place with a for rent sign in the front. Mark Rusnak was the agent and quickly met us at the house in the same day that we called. After checking it out, Mark was able to get us into the house right away with no issues or problems at all which was great considering the short amount of time we were dealing with. We signed a six month lease but ended up staying 2 1/2 years because Mark was such a pleasure to deal with. ANYTHING that ever went wrong with the rental Mark was on top of the issue and had someone there to fix it within 24 hours of my call to him. I appreciated his professionalism and willing and caring attitude. I would recommend to anyone to do business with Mark Rusnak for either renting or buying as he really knows the Real Estate business and can help you every step of the way. People like Mark in the Real Estate business are rare so go ahead and give him a call, you won't be disappointed!

Thanks for everything Mark
